Allowance of Application # 09/659,951

1. The following communication is in response to applicant's RCE/IDS, received on 6-June-2005.

Examiner's Amendment

2. An Examiner's Amendment to the record appears below. This Examiner's Amendment was originally presented with the Notice of Allowance dated 15-March-2005. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee. Authorization for this Examiner's Amendment was given by Danita Maseles (Reg. No. 33,419) on 7-March-2005.

2.1 In the Claims:

On **line 1** of claims **1, 29, 31, 33, 35, 37, 39, 40 and 42**; Change "A method" to --A computer-implemented method--.

Reasons for Allowance

3. The following is an Examiner's Statement of Reasons for the indication of allowable subject matter. The instant application is directed to a non-obvious improvement over the information described in the related prior art, specifically the article authored by Smith et al., entitled *The Road Ahead to Real-time Oil and Gas Reservoir Management*. The improvement

In re Application of: Gurpinar et al.

comprises a computer-implemented method of managing a fluid and/or gas reservoir which assimilates diverse data having different acquisition time scales and spatial scales of coverage for iteratively producing a reservoir development plan that is used for optimizing an overall performance of the reservoir. This patentable distinction is generally included in each of the various embodiments of the present invention, said embodiments represented by independent claims, nos. 1, 29, 31, 33, 35, 37, 39, 40 and 42. The art of record, either individually or in combination, fails to teach, suggest, or render obvious the useful, concrete and tangible <method of managing a fluid and/or gas reservoir> having the corresponding structure which is disclosed in the specification and equivalents thereof at least at page 5, line 19 through page 17, line 3, and Figures 1-29. In view of the foregoing, the claims of the present application are found to be patentable over the prior art.

Response Guidelines

4. Any comments considered necessary by applicant **MUST** be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should clearly be labeled "Comments on Statement of Reasons for Allowance".

4.1 Any response to the Examiner in regard to this allowance should be

directed to: Russell Frejd, telephone number (571) 272-3779, Monday-Friday from 0630 to 1500 ET, **or** the examiner's supervisor, Jean Homere, telephone number (571) 272-3780.
